

Profile ; Masayasu Ito (JAEA), Poster No : P-1

The JAEA have been progressing development plan of R&D base as part efforts based on roadmap towards decommissioning of TEPCO's 1F. The R&D base's name is "Okuma Analysis and Research Center"

Today's Theme ; Laboratory-2 of Okuma Analysis and Research Center

My poster's topics

- Expected samples for Laboratory-2
- Analysis needs and methods of fuel debris
- Design concepts of Laboratory-2

In today's poster, I will introduce mainly about examination results that committee of experts have examined in FY 2016.

For more details, I will explain it on the poster (P-1).
